

Coffee at home • functions → components

Row priorities are the preceding stage’s unrounded relative priorities. Relationships are illustrative engineering judgments; component choices remain provisional.

Functions • inherited priorities → Components		Rel. %	Water tank and refill interface	Heater and thermal sensor	Pump and pressure-limiting path	Flowmeter and water circuit	Dose chamber, opener, and seals	Sealed dose and barrier packaging	Coffee outlet and cup support	Drip tray and spent-dose container	Controller and user interface	Housing, interlocks, and power protection
Store water for consecutive drinks	6.2	●				△					△	△
Convert electrical energy into heat	9.3		●								○	○
Deliver water at controlled temperature	10.6		●	△	○	△					●	△
Pressurize water for extraction	7.3			●	○	○					○	○
Channel and meter water to the dose	7.7	△		○	●	○	△				●	
Open the dose flow path	10.2			△		●	●				△	○
Control water–grounds contact	7.7		○	○	●	●	●	△			●	
Preserve grounds before extraction	8.5						●					
Deliver coffee into the cup	8.2				△	○		●			△	△
Collect drips and spent doses	9.1					○	△	○	●			△
Guide setup and the brewing sequence	9.2	○				○	△	△	○	●	○	
Contain heat, pressure, and electrical hazards	6	△	○	●	○	●	△	○	○	○	●	●
